

Jacob Kim

Houston, TX | (281) 386-4401 | jkim2002@gmail.com | <https://www.linkedin.com/in/jacob-kim1/> | Top Secret Clearance

EDUCATION

The University of Texas

August 2020 – December 2024

B.S. Electrical and Computer Engineering (Software Engineering)

Product Design Experience:

- Created a hardware-as-a-service (HaaS) system with fully integrated UX/UI, cloud, and data encryption
- Constructed an Android Studio weather app project written in Java implementing APIs, volley, XML, JSON parsing, and complete UX/UI
- Implemented and designed an operating system in Pintos written in C

SKILLS + TOOLBOX

- **Software + Product:** Java, Python, C, C++, Linux, Assembly, AWS, Cloud/AI, Scrum, Verilog, Jupyter Notebook
- **Design:** Figma, Android Studios, Swift, Prototyping, Adobe Studios, Jira

PROFESSIONAL EXPERIENCE + LEADERSHIP

AnaVation LLC, Software Development | Full Stack Developer

June 2024 – August 2024

Software Engineering Intern (**Top Secret Clearance**)

Chantilly, VA

- Developed a full-stack application to assist in searches for missing persons and support law enforcement, integrating both front-end and back-end technologies
- Utilized Python, Java, CSS, and JavaScript to design and implement user-friendly web pages and app interfaces
- Integrated AWS Location Services and Android Studio to enable real-time mapping and location tracking features
- Engineered a cloud-based architecture using AWS S3 and EC2, ensuring scalability and security

AnaVation LLC, Software Development | AI Cybersecurity Integration

May 2023 – August 2023

Cybersecurity Intern

Chantilly, VA

- Utilized Python to develop a natural language processor to search open threat exchange databases utilizing user inputs
- Implemented AWS Lambda, S3, and AI with Chat GPT-3 API to improve product design and data evaluation
- Improved performance of NLP by analyzing data using Splunk and MISP
- Managed defense contracts, federal government projects, and Scrum product management
- Led team presentation of final product design to senior leadership

The University of Texas at Austin, UT Petroleum and Gas Engineering Hackathon

January 2023

Team Leader, Product Developer

Austin, TX

- Led a team to create a Python-based machine learning algorithm to analyze oil well and pump data to predict oil well and pump failure accurately
- Spearheaded design of the algorithm and led product development meetings using Scrum techniques
- Presented final product to a panel of professional data scientists including Amazon, BP, Baker Hughes, and Pioneer

Jacobs Engineering Group Inc., Electrical Engineering | Project Development

May 2022 – August 2022

Electrical Engineering Intern

Dallas, TX

- Collaborated with project managers to develop innovative lighting and electrical solutions in corporate facilities
- Conducted market research to identify emerging technologies and trends within the electrical and lighting industry
- Designed electrical and lighting systems using AGI32 and Revit software
- Created data and 3D models to present project designs to senior project managers

EXTRACURRICULARS

The University of Texas, Texas Wranglers

January 2021 – December 2024

- Coordinated for the University of Texas and the University of Texas Men's Basketball team
- Engaged in 15+ philanthropic events with \$13,000+ going to many nonprofits including the Eastern Seals which is an organization that provides disability services and rehabilitation
- Led annual scare park volunteering event, with 200 volunteers and raising \$20,000 for breast cancer research

The University of Texas, Society of Asian Scientists and Engineers (SASE)

August 2020 – December 2024

- Engaged in a national organization dedicated to the career advancement of Asian heritage STEM students
- Founded the first SASE Jr. club nationally and led the SASE Jr. high school initiative in the greater Houston area

RELEVANT COURSEWORK

Software Implementation and Design (OOP) I and II, Embedded Systems, Circuit Theory, Algorithms, Digital Logic Design, Linear Systems and Signals, Probability and Random Processing, Software Lab, Operating Systems, Information Security
